

IN FOCUS AT PERFLEX

Custom printed beer labeling
for bottles and cans, as well
as keg collars.

Beer labels need to be able to withstand high humidity environments - maybe even a bucket full of ice. At Perflex Label, we use high quality materials and adhesives so your labels will endure even if they spend time under water.

If you really want to stand out from the crowd we offer matte and glossy varnishes, or even a combination of both. The only limitation is your creativity.

Our Digital printing methods allow you to offer many different product varieties to your customers without breaking your budget. Create multiple label designs of the same size and we can print them all in a single run.

Think of us the next time you need to place an order for labels.
